WHO WE ARE

Meridian Foods is a Peruvian company specialized in fresh fruit export and strategic sourcing management for the agro-industry. We connect Peru's fruit supply with customers who look for quality, continuity, compliance and trust, bringing together agricultural knowledge, commercial management and logistics coordination.

We have a network of more than 100 growers in Peru's main fruit-growing regions and a team with more than 15 years of experience in the agro-industrial sector.

We know the particulars of each season, variety and growing region. That is why our work begins long before harvest: we identify growers, evaluate farms, forecast volumes and sizes, monitor quality conditions and coordinate supply all the way to its destination.

WHY MERIDIAN FOODS

Year-round continuity

Six fruits with complementary harvest windows, for programs with no empty months.

Export quality

Inspection in the field and at reception against each customer's and destination's specification.

Full traceability

Lot, grower and production site recorded for every shipment.

Coordinated logistics

Harvest, collection and transport synchronized with the customer's program.
